Six facts about child well-being in Rhode Island

As of 2018, 30% of Rhode Island children lived in families lacking secure parental employment.

In 2017, Hispanic Rhode Island children were almost four times as likely to be in poor health than their Non-Hispanic White peers.

18% of Rhode Island children lived in households that were food insecure at some point in 2018.

In 2018, 55% of Rhode Island children ages 3 to 4 were not enrolled in prekindergarten programs.

Black Rhode Island fourth graders were almost 20% more likely to score below proficient in fourth grade reading achievement in 2019.

Rhode Island ranks 26th in the nation in the children's economic well-being domain.

In the US today, 52.1% of children (38.5 million children) are poor or low-income. When more than half of our children do not know if they will have a place to sleep, nutritious meals, or safe communities, we are failing our families and compromising the future of this country.

More than 1.5 million public school students experienced homelessness during the 2017-2018 school year. LGBTQ+ youth are at a much higher risk of homelessness than their peers.

In 2016, there was a resurgence in school re-segregation. Predominantly white school districts received $2,200 more per student in funding. Funding for tribals schools has fallen from $400 million to $133 million over the past 10 years.

A child or teen is killed with a gun every 2 hours and 34 minutes. African American and Native children and teens are more likely to be killed by law enforcement than any other ethnic groups.

Due to consistent underfunding, Early Head Start served only 5% of eligible infants and toddlers in 2016.

SNAP benefits 17.5 million children, but current attacks on SNAP will mean that 1 million children will no longer receive school meals.

In 2019, student debt totaled more than $1.5 trillion and affected about 44 million Americans.

It does not need to be this way. Investing in our children’s education could grow the economy by $32 trillion over the long-term. A Wall Street tax of 0.1% in trading could raise $70 billion to provide free public college for all. A cut of just 1% to the military budget would cover nearly 8 million additional Head Start spots.
